FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January, 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the numbers of contributors and amounts of contributions distributed by sex, age, earnings level, and employment status of contributors and by province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data. Unfortunately, 1968 figures are the latest firm earnings data which are available.

This publication has been prepared by Sheila I. McLean and Réal Bouchard, under the direction of N. St-Onge, Chief Statistician, Division of Planning and Development, Canada Pension Plan.

Concepts and Terminology

Contributor: To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring or dying in the year, earnings for the year must exceed $600 for employees or be at least $800 for the self-employed.

In the following tables, however, the term "contributors" refers to all persons who had earnings of a type on which Canada Pension Plan contributions are made, regardless of whether or not they are otherwise eligible.

Earnings: These are essentially salaries and wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

Contributions: In 1968, contributions were payable on earnings between $600 and $5,100 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1968, the maximum contribution payable by an employee was $81.00 and that of a self-employed person, $162.00

Province: Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and Outside Canada because of the small numbers in these areas.

Age: The ages given in the tables are those at the end of the calendar year.

All Ages: Includes those persons whose age or sex is not known. Thus, the sum of the entries for the age groups may not be equal to the entry for "all ages".

All Areas: Due to computer read-errors which could not be retraced, the entries in the "all areas" category may not be equal to the sum of the entries for the provinces. It should be noted, however, that the differences are not significant.

Average Earnings: The total amount of earnings divided by the number of contributors. The earnings of each contributor with earnings of $10,000 or over are reported to the Canada Pension Plan as $9,999. Consequently, the average earnings for any age or age group are somewhat understated.

Median Earnings: The value in the earnings distribution which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

Average Contributions: Total amount of contributions divided by the total number of contributors.

Employment Status: A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

Source of Data

These tables were obtained from the Record of Earnings maintained by the Departmental Services Officer, Canada

Pension Plan. The Record of Earnings contains records of the earnings and contributions of each contributor and individual details are held in strict confidence.

Symbol

The symbol (-) is used to indicate a number less than three in the tables on the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

Charts

There are six charts included in this publication. Each chart follows the table from which it is derived. The charts illustrate the number of contributors by age, the number of contributors by earnings level, amount of contributions by province, the average earnings by age, the median earnings by age, and the average earnings by province.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status, and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

This publication has been prepared by Ian Kelley, Statistician, Division of Planning and Development, Canada Pension Plan.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Departmental Services Officer, Canada Pension Plan. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

There are six charts included in this publication. Each chart follows the table from which it is derived.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled retiring or dying in the year, earnings for the years must exceed $600 for employees or be at least $800 for the self-employed.

In the following tables, however, the term "contributors" refers to all persons who had earnings of a type on which Canada Pension Plan contributions are made, regardless of whether or not they are otherwise eligible.

CONTRIBUTIONS:

In 1969, contributions were payable on earnings between $600 and $5,200 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1969, the maximum contribution payable by an employee was $82.80 and that of a self-employed person, $165.60.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries and wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions. Contributors with earnings of $10,000 or over are reported to the Canada Pension Plan as $9,999. Consequently earnings and average earnings for any age or age group are somewhat understated.

MEDIAN EARNINGS:

The value in the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

ALL AGES:

Includes those persons whose age and/or sex is not known. Thus, the sum of the entries for the age groups may not be equal to the entry for "all ages".

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

This publication has been prepared by Ian Kelley and René Prévost, under the direction of Réal Bouchard, Chief Statistician, Division of Planning and Development, Canada Pension Plan.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Departmental Services Officer, Canada Pension Plan. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

There are five charts included in this publication. Each chart follows the table from which it is derived.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring or dying in the year, earnings for the year must exceed $600 for employees or be at least $800 for the self-employed.

In the following tables, however, the term "contributors" refers to all persons who had earnings of a type on which Canada Pension Plan contributions are made, regardless of whether or not they are otherwise eligible.

CONTRIBUTIONS:

In 1970, contributions were payable on earnings between $600 and and $5,300 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1970, the maximum contribution payable by an employee was $84.60 and that of a self-employed person, $169.20

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries and wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions. Contributors with earnings of $10,000 or over are reported to the Canada Pension Plan as $9,999. Consequently earnings and average earnings for any age or age group are somewhat understated.

MEDIAN EARNINGS:

The value in the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

ALL AGES/AREAS:

Includes those persons who age, sex and/or province is not known. Thus, the sum of the entries for the age groups and provinces may not be equal to the entry for "all ages" and "all areas".

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

This publication has been prepared by René Prévost, under the direction of Ian Kelley, Program Analyst, Division of Planning and Development, Canada Pension Plan.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Departmental Services Officer, Canada Pension Plan. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

There are five charts included in this publication. Each chart follows the table from which it is derived.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring or dying in the year, earnings for the year must exceed $600 for employees or be at least $800 for the self-employed.

In the following tables, however, the term "contributors" refers to all persons who had earnings of a type on which Canada Pension Plan contributions are made, regardless of whether or not they are otherwise eligible.

CONTRIBUTIONS:

In 1971, contributions were payable on earnings between $600 and $5,400 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1971, the maximum contribution payable by an employee was $86.40 and that of a self-employed person, $172.80.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries and wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions. Contributors with earnings of $10,000 or over are reported to the Canada Pension Plan as $9,999. Consequently earnings for any age or age group are somewhat understated.

MEDIAN EARNINGS:

The value in the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

ALL AGES/AREAS:

Includes those persons whose age, sex and/or province is not known. Thus, the sum of the entries for the age groups and provinces may not be equal to the entry for "all ages" and "all areas".

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

Inquiries should be directed to the Chief, Financial and Administrative Services, Canada Pension Plan.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

Les demandes de renseignements devraient être adressées au chef, Services financiers et administratifs, Régime de pensions du Canada.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

There are five charts included in this publication. Each chart follows the table from which it is derived.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $600 for employees or be at least $800 for the self-employed.

In the following tables, however, the term "contributors" refers to all persons who had earnings of a type on which Canada Pension Plan contributions are made, regardless of whether or not they are otherwise eligible.

CONTRIBUTIONS:

In 1972, contributions were payable on earnings between $600 and $5,500 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1972, the maximum contribution payable by employee was $88.20 and that of a self-employed person, $176.40.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir de données du registre des gains tel que maintenu par le ministère des Approvisionnements et Services, Division du Régime de pensions du Canada. Le registre d gains contient le montant des gains et des cotisations d chaque cotisant. Les renseignements particuliers sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur à trois dans les tableaux sur le nombre de cotisants, et nul ou inférieur à l'unité utilisée dans l autres tableaux.

Cinq graphiques ont été inclus dans cette publicatio et chacun d'eux suit le tableau auquel il se rapporte.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être agée d'au moins 18 ans, mais moins de 70 et ne pas recevoir une pension de retraite ou d'invalidité du Régime de pensions du Canada. De plus, sauf pour un année au cours de laquelle une personne atteint l'âg de 18 ou de 70 ans, ou meurt, ou au cours de laquell une pension de retraite lui devient payable, ou une pension d'invalidité lui devient payable ou cesse de l'être, les gains pour une année doivent être supérieurs à $600 pour les salariés, et au moins $80 pour les travailleurs autonomes.

Cependant, dans les tableaux de cette publication, l terme "cotisant" s'applique à toutes les personnes q avaient des gains sur lesquels des cotisations ont é prélevées, indépendamment du fait qu'elles puissent pas être éligibles.

COTISATIONS:

En 1972, les gains cotisables étaient les gains compris entre $600 et $5,500, tant pour les salariée que les autonomes. Les cotisations versées au Régim de pensions du Canada sont 3.6% des gains cotisables mais dans le cas des salariées, 1.8% est versé par l employeurs. Ainsi, en 1972, la cotisation maximale payable par un employé était de $88.20 et celle d'un personne travaillant à son propre compte, de $176.4(

ÉTAT RELATIF À L'EMPLOI:

Un cotisant est classifié comme salarié, travailleu autonome, ou mixte selon que ses gains proviennent d'un emploi, d'un travail à son propre compte, ou de deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations au Régime de pensions du Canada ont été prélevées. Ces gains sont essentiellement des salaires et des gages, et des gains provenant d'un travail autonome. Les gains ne comprennent donc p les revenus provenant d'investissements ou de pensions.

MÉDIANE DES GAINS:

La valeur dans la distribution des gains qui divise nombre de cotisants en deux parties égales, ou le montant des gains au-dessus et au-dessous duquel se situent 50% des cotisants.

ÂGE:

Dans tous les tableaux, les âges utilisés sont ceux la fin de l'année civile.

AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

INCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0.0001% de l'ensemble des cotisations.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, le Yukon, les Territoires du Nord-Ouest, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

Inquiries should be directed to the Chief, Financial and Administrative Services, Canada Pension Plan.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être, de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

Les demandes de renseignements devraient être adressées au chef, Services financiers et administratifs, Régime de pensions du Canada.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

There are five charts included in this publication. Each chart follows the table from which it is derived.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $600 for employees or be at least $600 for the self-employed.

In the following tables, however, the term "contributors" refers to all persons who had earnings of a type on which Canada Pension Plan contributions are made, regardless of whether or not they are otherwise eligible.

CONTRIBUTIONS:

In 1973, contributions were payable on earnings between $600 and $5,600 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1973, the maximum contribution payable by employee was $90.00 and that of a self-employed person, $180.00.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir de données du registre des gains tel que maintenu par le ministère des Approvisionnements et Services, Division du Régime de pensions du Canada. Le registre des gains contient le montant des gains et des cotisations de chaque cotisant. Les renseignements particuliers sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur à trois dans les tableaux sur le nombre de cotisants, et nul ou inférieur à l'unité utilisée dans les autres tableaux.

Cinq graphiques ont été inclus dans cette publication et chacun d'eux suit le tableau auquel il se rapporte.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être âgée d'au moins 18 ans, mais moins de 70 et ne pas recevoir une pension de retraite ou d'invalidité du Régime de pensions du Canada. De plus, sauf pour une année au cours de laquelle une personne atteint l'âge de 18 ou de 70 ans, ou meurt, ou au cours de laquelle une pension de retraite lui devient payable, ou une pension d'invalidité lui devient payable ou cesse de l'être, les gains pour une année doivent être supérieurs à $600 pour les salariés, et au moins $800 pour les travailleurs autonomes.

Cependant, dans les tableaux de cette publication, le terme "cotisant" s'applique à toutes les personnes qui avaient des gains sur lesquels des cotisations ont été prélevées, indépendamment du fait qu'elles puissent ou pas être éligibles.

COTISATIONS:

En 1973, les gains cotisables étaient les gains compris entre $600 et $5,600, tant pour les salariés que les autonomes. Les cotisations versées au Régime de pensions du Canada sont 3.6% des gains cotisables mais dans le cas des salariées, 1.8% est versé par les employeurs. Ainsi, en 1973, la cotisation maximale payable par un employé était de $90.00 et celle d'une personne travaillant à son propre compte, de $180.00.

ÉTAT RELATIF A L'EMPLOI:

Un cotisant est classifié comme salarié, travailleur autonome, ou mixte selon que ses gains proviennent d'un emploi, d'un travail à son propre compte, ou de deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations au Régime de pensions du Canada ont été prélevées. Ces gains sont essentiellement des salaires et des gages, et des gains provenant d'un travail autonome. Les gains ne comprennent donc pas les revenus provenant d'investissements ou de pensions.

MEDIANE DES GAINS:

La valeur dans la distribution des gains qui divise le nombre de cotisants en deux parties égales, ou le montant des gains au-dessus et au-dessous duquel se situent 50% des cotisants.

ÀGE:

Dans tous les tableaux, les âges utilisés sont ceux à la fin de l'année civile.

L AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

OVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0.0001% de l'ensemble des cotisants.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, le Yukon, les Territoires du Nord-Ouest, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

Inquiries should be directed to the Director, Finance and Administration, Canada Pension Plan.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être, de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

Les demandes de renseignements devraient être adressées au Directeur, Finance et administration, Régime de pensions du Canada.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

There are five charts included in this publication. Each chart follows the table from which it is derived.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $700 for employees or be at least $900 for the self-employed.

CONTRIBUTIONS:

In 1974, contributions were payable on earnings between $700 and $6,600 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1974, the maximum contribution payable by employee was $106.20 and that of a self-employed person, $212.40.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

AVERAGE EARNINGS:

Average of the earnings shown in the Record of Earnings. However, contributors having earnings of $100,000 or over are considered as having earnings of $99,999 for the purposes of the average.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir de données du registre des gains tel que maintenu par le ministère des Approvisionnements et Services, Division du Régime de pensions du Canada. Le registre des gains contient le montant des gains et des cotisations de chaque cotisant. Les renseignements particuliers sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur à trois dans les tableaux sur le nombre de cotisants, et nul ou inférieur à l'unité utilisée dans les autres tableaux.

Cinq graphiques ont été inclus dans cette publication et chacun d'eux suit le tableau auquel il se rapporte.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être âgée d'au moins 18 ans, mais moins de 70 et ne pas recevoir une pension de retraite ou d'invalidité du Régime de pensions du Canada. De plus, sauf si au cours de l'année une personne atteint l'âge de 18 ou de 70 ans, ou meurt, ou une pension de retraite lui devient payable, ou une pension d'invalidité lui devient payable ou cesse de l'être, les gains pour l'année doivent être supérieurs à $700 pour les salariés, et au moins $900 pour les travailleurs autonomes.

COTISATIONS:

En 1974, les gains cotisables étaient les gains compris entre $700 et $6,600, tant pour les salariés que les autonomes. Les cotisations versées au Régime de pensions du Canada sont 3.6% des gains cotisables, mais dans le cas des salariés, 1.8% est versé par les employeurs. Ainsi, en 1974, la cotisation maximale payable par un employé était de $106.20 et celle d'une personne travaillant à son propre compte, de $212.40.

ÉTAT RELATIF À L'EMPLOI:

Un cotisant est classifié comme salarié, travailleur autonome, ou mixte selon que ses gains proviennent d'un emploi, d'un travail à son propre compte, ou des deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations au Régime de pensions du Canada ont été prélevées. Ces gains sont essentiellement des salaires et des gages, et des gains provenant d'un travail autonome. Les gains ne comprennent donc pas les revenus provenant d'investissements ou de pensions.

MOYENNE DES GAINS:

Moyenne des gains inscrits au Registre des gains. Cependant, les cotisants dont les gains sont de $100,000 ou plus sont considérés comme ayant des gains de $99,999 pour le calcul de la moyenne.

MÉDIANE DES GAINS:

La valeur dans la distribution des gains qui divise le nombre de cotisants en deux parties égales, ou le montant des gains au-dessus et au-dessous duquel se situent 50% des cotisants.

AGE:

Age refers to age at the end of the calendar year.

ALL AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

ÂGE:

Dans tous les tableaux, les âges utilisés sont ceux à la fin de l'année civile.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0.0001% de l'ensemble des cotisants.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, le Yukon, les Territoires du Nord-Ouest, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

Inquiries should be directed to the Director, Finance and Administration, Canada Pension Plan.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être, de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

Les demandes de renseignements devraient être adressées au Directeur, Finance et administration, Régime de pensions du Canada.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $700.

CONTRIBUTIONS:

In 1974, contributions were payable on earnings between $700 and $7,400 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1975, the maximum contribution payable by employee was $120.60 and that of a self-employed person $241.20.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

AVERAGE EARNINGS:

Average of the earnings shown in the Record of Earnings. However, contributors having earnings of $100,000 or over are considered as having earnings of $99,999 for the purposes of the average.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir de données du registre des gains tel que maintenu par le ministère des Approvisionnements et Services, Division du Régime de pensions du Canada. Le registre des gains contient le montant des gains et des cotisations de chaque cotisant. Les renseignements particuliers sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur à trois dans les tableaux sur le nombre de cotisants, et nul ou inférieur à l'unité utilisée dans les autres tableaux.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être âgée d'au moins 18 ans, mais moins de 70 et ne pas recevoir une pension de retraite ou d'invalidité du Régime de pensions du Canada. De plus, sauf si au cours de l'année une personne atteint l'âge de 18 ou de 70 ans, ou meurt, ou une pension de retraite lui devient payable, ou une pension d'invalidité lui devient payable ou cesse de l'être, les gains pour l'année doivent être supérieurs à $700.

COTISATIONS:

En 1974, les gains cotisables étaient les gains compris entre $700 et $7,400, tant pour les salariés que les autonomes. Les cotisations versées au Régime de pensions du Canada sont 3,6% des gains cotisables, mais dans le cas des salariés, 1,8% est versé par les employeurs. Ainsi, en 1975, la cotisation maximale payable par un employé était de $120,60 et celle d'une personne travaillant à son propre compte, de $241,20.

ÉTAT RELATIF À L'EMPLOI:

Un cotisant est classifié comme salarié, travailleur autonome, ou mixte selon que ses gains proviennent d'un emploi, d'un travail à son propre compte, ou des deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations au Régime de pensions du Canada ont été prélevées. Ces gains sont essentiellement des salaires et des gages, et des gains provenant d'un travail autonome. Les gains ne comprennent donc pas les revenus provenant d'investissements ou de pensions.

MOYENNE DES GAINS:

Moyenne des gains inscrits au registre des gains. Cependant, les cotisants dont les gains sont de $100,000 ou plus sont considérés comme ayant des gains de $99,999 pour le calcul de la moyenne.

MÉDIANE DES GAINS:

La valeur dans la distribution des gains qui divise le nombre de cotisants en deux parties égales, ou le montant des gains au-dessus et au-dessous duquel se situent 50% des cotisants.

ÂGE:

Dans tous les tableaux, les âges utilisés sont ceux à la fin de l'année civile.

ALL AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0,0001% de l'ensemble des cotisants.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, le Yukon, les Territoires du Nord-Ouest, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être, de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $800.

CONTRIBUTIONS:

In 1976, contributions were payable on earnings between $800 and $8,300 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1976, the maximum contribution payable by employee was $135.00 and that of a self-employed person $270.00.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

AVERAGE EARNINGS:

Average of the earnings shown in the Record of Earnings. However, contributors having earnings of $100,000 or over are considered as having earnings of $99,999 for the purposes of the average.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir d données du registre des gains tel que maintenu par le ministère de Approvisionnements et Services, Division du Régime de pensions d Canada. Le registre des gains contient le montant des gains et de cotisations de chaque cotisant. Les renseignements particulier sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur trois dans les tableaux sur le nombre de cotisants, et nul o inférieur à l'unité utilisée dans les autres tableaux.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être âgé d'au moins 18 ans, mais moins de 70 et ne pas recevoir un pension de retraite ou d'invalidité du Régime de pensions d Canada. De plus, sauf si au cours de l'année une personn atteint l'âge de 18 ou de 70 ans, ou meurt, ou une pension d retraite lui devient payable, ou une pension d'invalidité lu devient payable ou cesse de l'être, les gains pour l'anné doivent être supérieurs à $800.

COTISATIONS:

En 1976, les gains cotisables étaient les gains compris entr $800 et $8,300, tant pour les salariés que les autonomes. Le cotisations versées au Régime de pensions du Canada son 3,6% des gains cotisables, mais dans le cas des salariés, 1,8 est versé par les employeurs. Ainsi, en 1976, la cotisatio maximale payable par un employé était de $135,00 et cell d'une personne travaillant à son propre compte, de $270,00.

ÉTAT RELATIF À L'EMPLOI:

Un cotisant est classifié comme salarié, travailleur auto nome, ou mixte selon que ses gains proviennent d'un emplo d'un travail à son propre compte, ou des deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations a Régime de pensions du Canada ont été prélevées. Ces gain sont essentiellement des salaires et des gages, et des gain provenant d'un travail autonome. Les gains ne comprennen donc pas les revenus provenant d'investissements ou d pensions.

MOYENNE DES GAINS:

Moyenne des gains inscrits au registre des gains. Cependan les cotisants dont les gains sont de $100,000 ou plus sor considérés comme ayant des gains de $99,999 pour le calcu de la moyenne.

MÉDIANE DES GAINS:

La valeur dans la distribution des gains qui divise le nombr de cotisants en deux parties égales, ou le montant des gai au-dessus et au-dessous duquel se situent 50% des cotisants.

ÂGE:

Dans tous les tableaux, les âges utilisés sont ceux à la fin d

ALL AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

ROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0,0001% de l'ensemble des cotisants.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, le Yukon, les Territoires du Nord-Ouest, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

FOREWORD

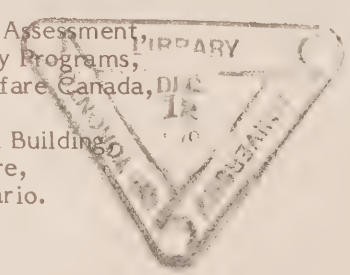

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être, de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $900.

CONTRIBUTIONS:

In 1977, contributions were payable on earnings between $900 and $9300 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1977, the maximum contribution payable by employee was $151.20 and that of a self-employed person $302.40.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

AVERAGE EARNINGS:

Average of the earnings shown in the Record of Earnings. However, contributors having earnings of $100,000 or over are considered as having earnings of $99,999 for the purposes of the average.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir de données du registre des gains tel que maintenu par le ministère des Approvisionnements et Services, Division du Régime de pensions du Canada. Le registre des gains contient le montant des gains et des cotisations de chaque cotisant. Les renseignements particuliers sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur à trois dans les tableaux sur le nombre de cotisants, et nul ou inférieur à l'unité utilisée dans les autres tableaux.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être âgée d'au moins 18 ans, mais moins de 70 et ne pas recevoir une pension de retraite ou d'invalidité du Régime de pensions du Canada. De plus, sauf si au cours de l'année une personne atteint l'âge de 18 ou de 70 ans, ou meurt, ou une pension de retraite lui devient payable, ou une pension d'invalidité lui devient payable ou cesse de l'être, les gains pour l'année doivent être supérieurs à $900.

COTISATIONS:

En 1977, les gains cotisables étaient les gains compris entre $900 et $9300, tant pour les salariés que les autonomes. Les cotisations versées au Régime de pensions du Canada sont 3,6% des gains cotisables, mais dans le cas des salariés, 1,8% est versé par les employeurs. Ainsi, en 1977, la cotisation maximale payable par un employé était de $151.20 et celle d'une personne travaillant à son propre compte, de $302.40.

ÉTAT RELATIF À L'EMPLOI:

Un cotisant est classifié comme salarié, travailleur autonome, ou mixte selon que ses gains proviennent d'un emploi, d'un travail à son propre compte, ou des deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations au Régime de pensions du Canada ont été prélevées. Ces gains sont essentiellement des salaires et des gages, et des gains provenant d'un travail autonome. Les gains ne comprennent donc pas les revenus provenant d'investissements ou de pensions.

MOYENNE DES GAINS:

Moyenne des gains inscrits au registre des gains. Cependant, les cotisants dont les gains sont de $100,000 ou plus sont considérés comme ayant des gains de $99,999 pour le calcul de la moyenne.

MÉDIANE DES GAINS:

La valeur dans la distribution des gains qui divise le nombre de cotisants en deux parties égales, ou le montant des gains au-dessus et au-dessous duquel se situent 50% des cotisants.

ÂGE:

Dans tous les tableaux, les âges utilisés sont ceux à la fin de l'année civile.

ALL AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0,0001% de l'ensemble des cotisants.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, les Territoires du Nord-Ouest, le Yukon, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

FOREWORD

Data presented in this publication are intended to supplement the operational statistics published quarterly in the Canada Pension Plan Statistical Bulletin. Both the quarterly Bulletin and this supplement are available to industry, welfare organizations and all levels of government as well as other interested persons.

Contributions to the Canada Pension Plan have been made by employees, employers and self-employed people since the Plan became effective in January 1966. These contributions, together with interest earned on the investment of contributions, completely finance all benefits and all costs incurred in the administration of the Plan. For these reasons, it was felt that detailed statistics on contributors and contributions would be of value and interest to many. The tables include statistics on the number of contributors and the amount of contributions distributed by sex, age, earnings level, employment status and province.

The Canada Pension Plan is an earnings-related program. In other words, both contribution amounts and benefit amounts are dependent on earnings. The information in the following tables is taken from earnings data and should not be mistaken for contributor information available from income data.

AVANT-PROPOS

Les renseignements contenus dans cette publication constituent un supplément aux statistiques publiées trimestriellement dans le bulletin statistique du Régime de pensions du Canada. Tout comme le bulletin statistique, cette publication est à la disposition de l'industrie, des organismes de bien-être, de tous les niveaux de gouvernement et des personnes intéressées.

Les cotisations au Régime de pensions du Canada sont versées par les salariés, les employeurs et les personnes travaillant à leur propre compte, depuis l'entrée en vigueur du Régime en janvier 1966. Ces cotisations et les intérêts sur l'investissement de ces cotisations financent entièrement les paiements des prestations et toutes les dépenses encourues pour l'administration du Régime. Ceci nous permet de croire à l'utilité et à l'intérêt que peut représenter la publication de statistiques détaillées sur les cotisants et leurs cotisations. Les tableaux contiennent des statistiques sur le nombre de cotisants et le montant des cotisations suivant le sexe, l'âge, le niveau des gains, l'état relatif à l'emploi et la province.

Le Régime de pensions du Canada est un programme basé sur les gains. En d'autres termes, le montant des cotisations et le montant des prestations dépendent des gains. Les renseignements fournis dans les tableaux sont tirés de données sur les gains et ne doivent pas être considérés comme provenant de données sur les revenus.

INTRODUCTION

The tables appearing in this publication were obtained through the Record of Earnings as maintained by the Canada Pension Plan Division of the Department of Supply and Services. The Record of Earnings contains records of the earnings and contributions of each contributor. Individual details are held in strict confidence.

The symbol (-) is used to indicate a number less than three in the tables indicating the number of contributors, and nil or an amount less than can be shown with the number of digits used in the other tables.

DEFINITIONS AND TERMINOLOGY

CONTRIBUTOR:

To contribute to the Plan, a person must be at least age 18, under age 70 and not be in receipt of a retirement or disability pension under the Canada Pension Plan. In addition, except for those persons becoming age 18 or age 70, becoming or ceasing to be disabled, retiring, or dying in the year, earnings for the year must exceed $1,000.

CONTRIBUTIONS:

In 1978, contributions were payable on earnings between $1,000 and $10,400 for both employees and the self-employed. Employees contribute at the rate of 1.8% with a matching contribution being made by their employers. Self-employed persons contribute at the rate of 3.6%. Thus, in 1978, the maximum contribution payable by employee was $169.20 and that of a self-employed person $338.40.

EMPLOYMENT STATUS:

A contributor having earnings only from salary and wages is considered an "employee". Contributors having only earnings from self-employment are classified as "self-employed". If a contributor has both employment and self-employment earnings, he is classified as "mixed".

EARNINGS:

Earnings are essentially salaries from wages of employees and earnings from self-employment on which CPP contributions are made. Earnings do not include income from investments or pensions.

AVERAGE EARNINGS:

Average of the earnings shown in the Record of Earnings. However, contributors having earnings of $100,000 or over are considered as having earnings of $99,999 for the purposes of the average.

MEDIAN EARNINGS:

The value of the distribution of earnings which divides the number of contributors into two equal parts, or the amount of earnings above which 50% of the contributors are located and below which the other 50% are located.

AGE:

Age refers to age at the end of the calendar year.

INTRODUCTION

Les tableaux de cette publication ont été obtenus à partir de données du registre des gains tel que maintenu par le ministère des Approvisionnements et Services, Division du Régime de pensions du Canada. Le registre des gains contient le montant des gains et des cotisations de chaque cotisant. Les renseignements particuliers sont strictement confidentiels.

Le symbole (-) est utilisé pour indiquer un nombre inférieur à trois dans les tableaux sur le nombre de cotisants, et nul ou inférieur à l'unité utilisée dans les autres tableaux.

CONCEPTS ET TERMINOLOGIE

COTISANT:

Pour être cotisant au Régime, une personne doit être âgée d'au moins 18 ans, mais moins de 70 et ne pas recevoir une pension de retraite ou d'invalidité du Régime de pensions du Canada. De plus, sauf si au cours de l'année une personne atteint l'âge de 18 ou de 70 ans, ou meurt, ou une pension de retraite lui devient payable, ou une pension d'invalidité lui devient payable ou cesse de l'être, les gains pour l'année doivent être supérieurs à $1,000.

COTISATIONS:

En 1978, les gains cotisables étaient les gains compris entre $1,000 et $10,400, tant pour les salariés que les autonomes. Les cotisations versées au Régime de pensions du Canada sont 3.6% des gains cotisables, mais dans le cas des salariés, 1,8% est versé par les employeurs. Ainsi, en 1978, la cotisation maximale payable par un employé était de $169.20 et celle d'une personne travaillant à son propre compte, de $338.40.

ÉTAT RELATIF À L'EMPLOI:

Un cotisant est classifié comme salarié, travailleur autonome, ou mixte selon que ses gains proviennent d'un emploi, d'un travail à son propre compte, ou des deux à la fois.

GAINS:

Ce terme réfère aux revenus sur lesquels des cotisations au Régime de pensions du Canada ont été prélevées. Ces gains sont essentiellement des salaires et des gages, et des gains provenant d'un travail autonome. Les gains ne comprennent donc pas les revenus provenant d'investissements ou de pensions.

MOYENNE DES GAINS:

Moyenne des gains inscrits au registre des gains. Cependant, les cotisants dont les gains sont de $100,000 ou plus sont considérés comme ayant des gains de $99,999 pour le calcul de la moyenne.

MÉDIANE DES GAINS:

La valeur dans la distribution des gains qui divise le nombre de cotisants en deux parties égales, ou le montant des gains au-dessus et au-dessous duquel se situent 50% des cotisants.

ÂGE:

Dans tous les tableaux, les âges utilisés sont ceux à la fin de l'année civile.

ALL AGES/AREAS:

Those persons whose age, sex and/or province is not known have been excluded from this publication. Those persons represent less than 0.0001% of all contributors.

PROVINCE:

Many contributors have earnings in more than one province. To avoid multiple counting of these persons, all earnings were considered to have been made in the province in which the greatest amount was earned. Provincial details have not been included for Quebec, N.W.T., Yukon and "Outside Canada" because of the small numbers in these areas.

TOTAL:

Les cotisants dont l'âge et/ou le sexe n'est pas connu ainsi que ceux dont la province de résidence n'est pas connue ont été exclus dans cette publication. Ces personnes représentent moins de 0.0001% de l'ensemble des cotisants.

PROVINCE:

Un certain nombre de cotisants ont des gains dans plus d'une province. Afin d'éviter de compter plus d'une fois ces personnes, on considère que tous leurs gains ont été faits dans la province où elles ont gagné le plus. Les tableaux donnant les détails sur le Québec, les Territoires du Nord-Ouest, le Yukon, et l'extérieur du Canada, ont été exclus en raison du petit nombre de cotisants dans ces régions.

(a) These figures are not representative of all the contributors in Quebec but only those who contribute to C.P.P.; this note applies in every table in which Quebec appears.

Ces chiffres ne représentent pas tous les cotisants dans la province de Québec, mais seulement ceux qui cotisent au Régime de pensions du Canada; ceci s'applique à tous les tableaux où le Québec apparaît.
